

SEARCHING FOR EDUCATIONAL RESOURCES?

Are you searching for materials to educate students on dairy farming and milk's journey from farm to fridge? Your dairy checkoff program has many resources to bring the farm to the classroom. See what's new:

FOR YOUR INFARMATION

ADA Mideast is pleased to share the Ohio Livestock Coalition's (OLC) For Your InFARmation program - a **free third-grade curriculum to teach students about Ohio agriculture**. The classroom lessons support Ohio learning standards for language arts, social studies and math, while educating students about farmers and the economy, livestock farming, safe and healthy food production, and careers in agriculture. After learning about the important role agriculture plays in Ohio, students can enter an essay contest for a chance to win a field trip to an Ohio livestock farm.

ADA Mideast is a member of OLC and appreciates your help in sharing this valuable tool with teachers in your community! For more information, visit ForYourInFARmation.com

Milk is Local

DOWNLOADABLE MATERIALS

To make sharing dairy's story easier than ever, ADA Mideast is now offering resources on Drink-Milk.com that can be downloaded directly to your computer! These **downloadable videos and nutrition handouts address common questions** like: How do dairy farmers care for their animals? What happens to all that manure? Is chocolate milk good for me?

Another new resource, made possible by DMI, your national dairy checkoff program, and Discovery Education is an Undeniably Dairy Virtual Farm Tour. Educators and 5th - 8th grade students across the U.S. can learn about modern dairy farming from the comfort of their classroom and ask questions via Twitter. Learn more at DiscoverUndeniablyDairy.com
