HOW TO MAKE A CHEESE BOARD

**Step 1: Find the Right Board**
A large wooden or slate cheese board helps add contrast to the colors of the cheese.

**Step 2: Select the Cheeses**
Follow the rule of odds. Plan on three to five cheeses depending upon the size of your party. Choose a variety of flavors and textures. Remember, variety is the spice of life!

**Step 3: Select the Meat**
To add more variety and flavor to your cheese board, add a selection of cured meats. One to three cured meats such as Coppa, Speck, Prosciutto, or Salami, are a great start.

**Step 4: Add Sides Galore**
Add color, texture and a variety of flavors to your cheese board. You can't go wrong with fresh or dried fruits, nuts and bread. Add some surprising items like honey, mustard, jams, and pickled vegetables.

**Step 5: Artfully Arrange**
Your guests will always remember your creativity and the delicious cheese!

SERVING SUGGESTIONS:
Typical serving size for cheese is 1 - 2 ounces per person per variety depending on the size of your party and if other appetizers are served.

To bring out the best flavors in cheese, remove the cheese from the refrigerator at least one-half hour before serving.

STORAGE TIPS:
**Best:** Use cheese paper, a two-ply paper which allows cheese to breathe while maintaining optimal humidity.

**Better:** Wrap cheese in waxed or parchment paper and then in plastic wrap. When storing blue cheese, use aluminum foil, it thrives in that environment.

**Avoid:** Resealable plastic bags and do not leave cheese in the same wrapping for extended periods of time.
