ADOPT A COW FOR YOUR CLASSROOM
Throughout this free year-long experience for your classroom, you’ll get an inside look at dairy farming and be paired with a calf from an Ohio dairy farm. You’ll find out what her name is, when her birthday is, where she lives and how the farmer takes care of her. You’ll also receive progress updates, photos of the cow, live chats from the farm, activity sheets for your students, suggested lessons that follow Common CORE standards and even opportunities to write letters to your calf! Enrollment is open now through September 15.
