Heating chocolate milk to serve as hot chocolate is a great way to increase milk consumption and attract new students to your school’s breakfast and lunch programs.

Hot chocolate can be served as part of a reimbursable meal as the student milk choice. Milk provides 13 essential nutrients that are important for kids’ development and overall wellness.

**HOW TO SERVE**

USDA allows schools to serve fat-free or lowfat flavored milk as part of a reimbursable meal. Check with your milk processor for chocolate milk in gallon or half gallon containers meeting meal regulations.

We recommend serving hot chocolate in an 9 oz. (or larger) hot cup with lid. Remember that 8 oz. of hot chocolate qualifies as a reimbursable component in your meal. Consider setting up your dispenser as part of your service line to let students serve themselves. Test what works best for your students.

Initially, it may be challenging to anticipate the amount of hot chocolate to prepare for the day. Keep a close watch on your dispenser and record usage to better project daily needs. At the end the day, discard leftover hot chocolate. Heated chocolate milk may separate when chilled and reheated, so use fresh milk each day for the best results. Do not use the dispenser for any other beverages as flavors will transfer to the milk.
**SPREAD THE WORD**

Get your students excited about hot chocolate made with real milk with these ideas:

- Use a marker to customize the included posters to highlight featured flavors of the week or which days hot chocolate will be served.
- Offer calorie-free toppings like cocoa powder, cinnamon, nutmeg or pumpkin pie spice for a seasonal treat.
- Host a contest to name your hot chocolate (Ex: Wildcat Hot Chocolate, Blue and Gold Hot Chocolate)
- Include hot chocolate in your daily announcements and promote on special holidays, like **January 31 - National Hot Chocolate Day**!
- Encourage students to write an article for your school newspaper or website.
- Post about your new menu item on social media! Remember to post according to your intended audience - students typically prefer Twitter or Instagram, while parents tend to prefer Facebook or Twitter.

**SAMPLE MESSAGING**

**Sample Announcement**

It might be cold outside, but we’re warming things up in the cafeteria! Grab a cup of hot chocolate made with real milk at breakfast or lunch - it’s included in your meal.

Did you hear? We’re now serving hot chocolate made with real milk at breakfast and lunch! What’s your favorite hot chocolate topping? [school hashtag] #UndeniablyDairy

**TWITTER POLL**

What’s your favorite hot chocolate topping? The winner will be featured on this month’s menu!
- A. Cinnamon
- B. Pumpkin Spice
- C. None - original is best!
- D. [Other options]
Use the equipment you have in your kitchen to make hot chocolate. We recommend these three methods.

Whichever method you choose, do not reheat or hold hot chocolate over night. Any remaining hot chocolate must be discarded and the dispenser must be cleaned and sanitized.

---

**STEAM KETTLE METHOD**

Set steam kettle to 300°F. Pour 2-3 gallons of chocolate milk into kettle.

Stir continuously until the milk reaches 145°F (about 5 minutes). Do not let the milk boil.

Pour into an insulated serving container using the tilt mechanism or the spigot on the kettle.

The spigot may also be used to fill a pitcher to pour into insulated single-serve cups.
TILT SKILLET METHOD

Set tilt skillet to 300˚F. Pour 2-3 gallons of chocolate milk into tilt skillet.

Stir continuously until the milk reaches 145˚F (about 15-20 minutes). Do not let the milk boil.

Tilt the skillet and pour into an insulated container for serving.

STOVE TOP METHOD

Pour 2-3 gallons of chocolate milk into stock pot. Set burner to medium heat.

Stir continuously until the milk reaches 145˚F (about 10-15 minutes). Do not let the milk boil.

Pour into an insulated container for serving.

HOW TO VIDEO
Students from a West Virginia high school created a video tutorial featuring three easy methods for making hot chocolate milk to serve in your school! Scan the QR code below to see how you can use existing equipment in your school's kitchen to make delicious hot chocolate. A picture tutorial is also included in your Hot Chocolate Kit.

SCHOOL MOCHA LATTE

Creative coffee beverages are always trending, and now you can offer them in your school with this simple recipe. Mixing chocolate milk with decaf coffee crystals is a great way to get students interested in a trendy milk beverage, while getting nutrition they need. This Mocha Latte recipe can also be served as the milk component with any school breakfast or lunch.

INGREDIENTS

- 1 gallon chocolate milk
- 1/2 cup decaf instant coffee crystals

INSTRUCTIONS

1. Measure out 4 cups of chocolate milk and pour into a clear pitcher.
2. Add 1/2 cup of decaf coffee crystals (per gallon) to the pitcher of milk.
3. Whisk quickly until all crystals are dissolved.
4. Add the remainder of the gallon of milk to the pitcher.
5. Pour 8 oz of milk into 9-oz plastic cups and put a lid on. This Mocha Latte is best when made the day before service.

NOTES

- Recipe makes 16 servings
